November 11, 2025: On Damages Caused by Donald's Stupidity

Honestly, I am alerting everyone that I am experiencing a constantly oppressive presence that is absolutely pushing the idea of sex into everything that I read from the Hebrew Bible.

Plain and simple. The spying presence of the Freemason network believes that the only word that exists in the Bible is sex, sexy, fucking, making babies, raping women, raping men, and fucking children.

I am certain that the child molestation problem that we hear about in the world and the problems that the women and men both have in holding anyone accountable for these horrific crimes is coming from the exact same network of people that are watching our home and forcing their horrific imagery into it - every single day.

The United States government and the Freemasons that run it are the perverts. Period. Full stop (as Boris Epstein would say).

I have never witnessed anything as perverted as the spying presence that continuously drives its messaging into our home. Every day.

I cannot get any justice. I am being held as a prisoner to people inside of the Whitehouse.
I have contacted police, politicians, etc.

This is the network.

Look around, folks!

Those white squares all around the country everywhere you go!

Those are the cubes. Block, by block they are 'cubin' up our world and holding it as their personal slaughtering grounds.

This is what happened to America. The police are run by Freemasonry and the Freemasonry network is consumed with pedophilia.

Checkmate.
